This Agreement for Received Embryo Transfer and Recipient Mare Lease is made between Oxbow Equine Services, LLC (Oxbow), existing under the laws of the State of Idaho, located at 1654 Sandhollow Rd, Caldwell, Idaho 83607, and Donor Mare's Owner, as identified above.

1.Fees: Donor Mare's Owner agree to pay fees as follows:

1.1 Recipient Mare Guarantee Fee NON- REFUNDABLE (\$700) secures recipient mare(s) for the donor mare whose name appears above. Recipient mares will be selected for the donor mare based on the reproductive soundness and synchrony with the donor mare. These expenses include all medications and treatments necessary (except progesterone) for the recipient mare until 35 days of pregnancy. This fee is paid only one time for each donor mare, no matter how many embryos are transferred from the same donor mare in 2022.

1.2 Embryo Transfer Fee (\$350) includes the transfer of each embryo to a recipient mare and ultrasound pregnancy examinations.

1.3 Recipient Mare Pregnancy Fee (\$2,000) will be applied to the Donor Mare Owner's account at 35 days of gestation for each pregnant recipient mare.

1.4 All charges associated with shipment of the embryo to Oxbow. Which includes express mail, airline shipping charges, courier service charges and returned freight charges.

1.5 Injectable Progesterone Fee (\$38) will be due for the recipient mare, if needed, each week to help maintain pregnancy. Recipient mare(s) MUST stay on Progesterone, if determined necessary, up to their 100 day pregnancy date.

1.6 Recipient Mare Boarding Fee (\$12/day), starting on day 35 pregnancy check date and continuing each day thereafter for the entire period the recipient mare remains at Oxbow.

2. Donor Mare's Owner is responsible for the transporting of the recipient mare(s) from Oxbow. All charges for services rendered in the contract shall be paid in full at that time. No recipient mare(s) shall be released without payment in full.

3. The recipient mare(s) must be returned, in good health, to Oxbow at owner's expense, once the recipient mare has weaned the foal. If the recipient mare(s) should die while under the care of the Donor Mare Owner, a fee of \$500 per deceased mare will be payable to Oxbow. If the recipient mare is not returned to Oxbow by February 1st of 2024 for any reason, (other than death) a fee of \$2500 will be charged to the Donor Mare Owner.

4. Oxbow makes no guarantees, warranties, or representations as to the success or outcome of the embryo transfer procedures herein completed.

5. Oxbow requires that all recipient mares be returned in good physical condition. The recipient mare is the property of Oxbow, the Donor Mare Owner is strictly leasing the mare for her surrogate services. Therefore, it is unlawful for anyone to sell, trade, or relinquish the recipient mare without previously contacting Oxbow.

6. Donor Mare Owner agrees to not hold Oxbow liable for any disease, accident, death, etc. of Donor Mare's pregnant recipient, nor in-utero foal. Any insurance desired on the pregnant recipient, and/or in-utero foal is the sole responsibility of the Donor Mare Owner. Oxbow will exercise its best judgment in supervising all horses' care while at Oxbow.

7. Embryo Insurance is available through Oxbow (\$485) per embryo. This provides the client with the use of a recipient mare in the following breeding season, should the current recipient mare fail to carry her foal to term and/or give birth to a live foal (defined as 24 hours post-delivery). The Donor Mare Owner must submit a notice signed by a licensed veterinarian confirming the pregnancy loss to Oxbow to be eligible to take advantage of this option.

Please check Yes___ or No_____ for the above stated insurance.
